# Our roles in our own words

## Registered Manager

Having worked within fostering solutions for almost 20 years, I have had the privilege of working with carer's from a variety of backgrounds with differing skills within the care they provide to our children. As the registered manager I have oversight of the delivery of service to foster carer's and children, I have endeavoured to develop the service we provide to carer's, ensuring they feel supported and heard by the agency."

## Team Manager

Our role as a Team Managers is to support, supervise and advise Supervising Social Workers who provide support to Foster Carers. As Team Managers we ensure the safety of all children and young people and make sure that they are receiving the best possible care. Should a child or young person feel like they are not receiving adequate care then it is our job to see why and what can be done to make things better for them. Our role also includes being a part of the re-approval process of Foster C."

## Admin

Our role is to support all the team at Fostering Solutions Midlands to fulfil their duties, whilst also assisting with processing of DBS checks, medicals, foster carer annual reviews and completing panel administration. You will see the admin team if you pop into the office or if you come along to one of our events."
